

We are looking for Women in GIS to be E-mentors

WomenTechWorld.org E-Mentors - Because We Believe in Supporting Each Other

Would you like to give a helping hand to other women studying to be or already working in GIS?

Do you wish someone had helped you?

Now's your chance to become a WomenTechWorld.org e-Mentor and support other women either working in or studying to become a GIS technician to help them achieve their career goals.

We're especially looking for women in a GIS occupation to become e-Mentors for the female students of San Diego Mesa College as part of our CalWomenTech Project.

If you or someone you know would like to be an e-Mentor for a woman in a GIS occupation, please visit our website at:

<http://www.womentechworld.org/ementoring.htm>
